# Quality Statement

Polimekanos is a graphic design practice based in London. It was founded in 2001 by Joseph Kohlmaier and Stefan Kraus.

We work across a variety of media, from books, posters, identities and stationery to exhibition design, signage and websites. Our philosophy is to respond to each brief specifically and combine research and intuition to create idiosyncratic work that stands out. Our clients include individuals and small businesses, as well as institutions in the corporate, educational and cultural fields.

Polimekanos is a limited company registered in England and Wales no. 3503736. Our registered office is 8a West Smithfield, London EC1A 9JR and our VAT number is 773 8400 15. We currently employ four people and work with a variety of consultants, printers, programmers and partners which add their skill and expertise to our projects.

We aim to ensure that the expectations and specific needs of our clients are understood and met, and we only accept work which we can deliver.

We adopt a high professional standard and ensure all our work is undertaken with care and integrity. Our staff receive the appropriate training to continuously develop their own skills and grow our creative and professional output. We meet regularly to review the quality of our work, the development of our projects and audit internal procedures.

Each project has an assigned project manager. We are a tightly knit team and communicate directly and regularly with our clients. This prevents complaints from happening, but if there are any issues, we deal with them immediately and efficiently.

Though the Directors have ultimate responsibility for quality, all employees have a responsibility within their own areas of work so helping to ensure that Quality is embedded within the whole of the company.
